**What did you especially like about this discussion section?**

All well.
He cares about his students.
I liked that I knew what to expect every lab. We walked through some examples and had time to take a quiz to test our abilities.
It course helped me understand financial topics and prepare for the exams. Everything was very organized, and the tutor/ta was very helpful as well.

**What suggestions would you make to improve this discussion section?**

Don't have just a final as your grade for the class
I learned more in this class than the actual lecture! So no suggestions
I wish this class has 15 additional minutes for us to ask more questions.
It would be nice to have an option as to which lab I am placed in. I got thrown into a lab that conflicted with my schedule whether it worked for me or not.
Later in the day.
Make it longer. The class time seemed really short.

Charles is a fantastic teacher and a great person. Along with Professor Virani, I came to Charles with questions and asked for some advice. I owe Charles a lot for what he has taught me and I have learned so much this semester.
Charles is the man. Helpful and prepares you for the real world instead of just teaching academia topics.
Great teacher

**What did you especially like about this discussion section?**

Charles Favreau was an excellent instructor for my discussion section. He always helped each individual student with any questions they might have throughout the course. He is extremely knowledgeable in Finance and is also very effective in teaching the material. I always attended the discussions because I knew Charles would make the class extremely beneficial for me and I would learn a lot.

Charles is a great lab instructor! He is clear and concise and makes lab very worthwhile. Everything we learn helps in class and on tests.

Charles is great at explaining the "how-to" for finance related material.

Charles was extremely helpful and made this class better. He's a funny and helpful person that you can relate to and is always ready to help students.

Clear, succinct

How easy he makes the class to follow

The 1 on 1 help that was given

The quick responses to questions

Very effective teaching

Very informative and relates everything to things he has actually seen in the finance world.

Very thorough, helped learn important concepts

Went more in depth with topics

amazing learning experience. Charles was always explaining difficult topics and going through them in much detail. He clearly wants everyone to do well on test and quizzes. I can see his passion for teaching

he was a very helpful teacher

i liked it all

it gives that extra to do well in this class

n

the professor has a clear mind about what he has to teach for us.

use of examples

**What suggestions would you make to improve this discussion section?**

Better preparation for exams.

Extended time

I wish this class was just a little longer, I get a lot out of this class and I always feel rushed.

More practice problems

Amazing teacher, best from all Eller first semester teachers.

Charles is amazing instructor. I would love to see him teach a Finance Lecture as a professor and I have no doubt that he would excel.

Charles is an excellent teacher, with proper knowledge of the course material.

Charles is just like me so its easy to relate and its easy for me to want to succeed in this class.

I wish he taught every Eller class of mine

Learned more than actual course, thank you!

My possible failure in the class would have nothing to do with Charles. Excellent instructor!

**What did you especially like about this discussion section?**

Great information in all course material and feedback

I really enjoyed the technical skills that this class helped me develop and the real life applications that Charles brought up during the semester.

The open discussion is very effective in this class.

Working through problems in class

professor engagement

**What suggestions would you make to improve this discussion section?**

A more structured discussion class would help students understand content better. Sometimes the class is very unstructured and I can't follow along with the material.

I think one way that the discussion class could be improved is through more critical thinking regarding the problems that we face. Talking or thinking about the implications before being told them could be a way to develop the thinking process of students.
